WHY THE FARMERS ARE FOR

BRYAN. To the Editor of the Alexandria Gazette: When corn is sold within forty miles of the capital of the nation for less than half of the cost of production, namely, for fifteen cents a bushel, then the agricultural portion of the country is very near bankruptcy. That this is owing to the fact of there being an unusually large crop I deny, for having traveled several hundred miles in different di-rections and observed the crop closely. I am convinced that it was much injured by the hot wave that swept over the country and that when gathered and housed it will in this State be found to be hardly up to the average, while in several other States it is a complete failure. The true reason why one huudred barrels of corn has been sold for seventy-five dollars, as was the case recently near here, is the extreme scarcity of money and the disinclinagrain when they hope for a chance to invest in other property at a much g.eater sacrifice. I came across a return of sale of four thousand and five bushels of corn, sold on May 11, 1855, in bushels of corn, sold on May 11, 1855, in your city for me, by Jas. H. Simpson, 3,505 bushels at one dollar and six cents a bushel and the other five hundred bushels at one dollar and five cents, and in the currency of our fathers. What a contrast in price! What are farmers to do now if it costs more to raise a crop than it sells for? And consequently what is to become of the laborers? If corn is only 5 cents a sif she could not survive them. A What are farmers to do now if it costs more to raise a crop than it sells for? And consequently what is to become of the laborers? If corn is only 5 cents a bushel and a man can't get the five cents he must starve. In the language of the ancient mariner "Water, water everywhere, and not a drop to drink."

party manifestation, a few sore heads, disgruntled at not having their own

peculiar views adopted, have endeavor-

ed to override the will of the majority by holding a bobtail convention and

the range of possibilities, if not of prob-

abilities, that within the next few years

this country may see a revolution

compared with which the French revo-

lution will seem but a "tempest in a tea pot." I am afraid that the speca-

cle recently presented in some of our

cities of the crowds bending the knee to the gold Chinee, may make some of

our plutocrats dissatisfied with only possessing a hundred millions and urge them to more strenuous exertions in

robbing and enslaving the laboring man. The present condition of things

in our old State demands the immediate attention of Gov. O'Ferrall, who

should at once convene the legislature

for the passage of some act to prevent the people from being despoiled of the

remnant of their depreciated property.

HANNA'S CAMPAIGN FUND.

James Creelman in the New York World, a gold newspaper, writes as

follows: The worst element in this

campaign is the part which Mark Han-

most corrupt and corrupting political struggle known to the American people.

Bryan may be defeated, but the influence of money and of Mark Hanna's methods upon the voters of Wisconsin,

in common with the voters of other

States, will not disappear after election

day.

Let me give one example. I speak

of a matter I know and understand. The Reliance Machine Works, owned

by the Edward P. Allis Company, are

situated in Milwaukee. There are employed in this establishment something like 1,800 men. Here the Bryan senti-

ment is very strong.

It is an absolute fact that eighteen

working men in this establishment are
